Quality Policy Statement

Riverside Industrial Equipment Ltd are committed to conducting all activities and operations in a manner which provides our customer base with a product and/or service which satisfies their requirements and is "fit for purpose" according to customer's expectations in terms of quality, cost and reliability. We ensure that this Quality Policy is communicated and understood within the organisation (and reviewed for continuing suitability) and our business will be conducted according to the following principles.

We will:

- Comply with all applicable legislation and regulations and conduct our business in an ethical and professional manner at all times, meeting all requirements.
- Follow a concept of continuous improvement through effective teamwork and strive to achieve, maintain and build on a level of quality which enhances our reputation across our customer base.
- Analyse business performance to enable us to measure the effectiveness of our Quality Management System and our commitment to continual improvement. In turn, we will also communicate the importance of quality and reliability and the subsequent impact on both customer satisfaction and all services that we deliver.
- Take due care to ensure that all our activities are safe for employees, suppliers, customers and others who may come into contact with our work.
- Ensure that the qualifications that our people hold remain up-to-date and suitably refreshed in line with all requirements.

Chris John, August 2015
Director

Riverside Industrial Equipment Ltd

Health and Safety Policy Statement

Riverside Industrial Equipment Ltd is committed to working in a way that protects the health, safety and welfare of employees and others affected by our activities.

We will give equal regard to the environment, health and safety, production, quality and cost. We will act as good neighbours and provide employment that develops the potential of each employee. We will comply with legislation, as a minimum, and strive to improve performance on a continual basis.

We will promote equally the duties of management and employees. All employees, and others working on our premises, have a duty to co-operate with supervisors and managers, to maintain health and safety provisions, to take care of their own health and safety and that of others, and to report any concerns they may have or unsafe conditions they find. The company is committed to:

- providing a healthy and safe working environment
- identifying hazards and assessing risks
- providing safe systems of work
- providing information, training and instruction
- consulting with the workforce
- providing competent supervision
- providing personal protective equipment
- providing advice and monitoring
- providing adequate welfare facilities
- working with competent suppliers

The company has appointed a director who is responsible for monitoring and reviewing this policy. However, all directors, managers and supervisors must accept responsibility for the health and safety at work of employees and others under their control. Directors are responsible for making available adequate physical and organisational resources. Managers must devise and implement safe systems of work, and supervisors must ensure that workers are briefed and consulted on the risks and comply with safe working practices. Ultimately, managers are responsible for ensuring that this policy is brought to the notice of all employees and others who may be affected by it.

The company has appointed safety advisers to provide monitoring, advice, training and instruction. They will carry out audits and inspections and bring to the attention of management any deficiency observed, and stop any operation that puts the company's employees or other persons at risk.

This policy will be reviewed annually.

CD John
